FOOT LOCKER, INC. REPORTS FIRST QUARTER RESULTS

- Total Sales Increased 16.1 Percent
- Net Income Per Share Increased 19 Percent to \$0.37
- Pre-tax Profit Increased 23 Percent
- Pre-tax Profit Margin Improved by 40 Basis Points
- Re-confirms Guidance on Full-Year EPS From Continuing Operations

NEW YORK, NY, May 18, 2005 – Foot Locker, Inc. (NYSE: FL), the New York-based specialty athletic retailer, today reported financial results for its first quarter ended April 30, 2005.

Financial Results

Net income for the Company's first quarter ended April 30, 2005, increased 19 percent to \$0.37 per share, or \$58 million, from \$0.31 per share, or \$48 million last year. Included in last year's results was a gain of \$1 million related to discontinued operations. For the first quarter period, sales increased 16.1 percent to \$1,377 million this year compared with sales of \$1,186 million for the corresponding prior year period. First quarter comparable-store sales increased 2.6 percent.

"We are pleased that our pre-tax profit from continuing operations increased by 23 percent and, as a percentage of sales, by 40 basis points from the first quarter of last year," stated Matthew D. Serra, Foot Locker, Inc.'s Chairman and Chief Executive Officer. "Our earnings per share was at the high end of the guidance that we provided at the beginning of the quarter and, as a result, we remain comfortable that we will be able to continue to post income from continuing operations per share increases in the 10-to-20 percent range for the balance of 2005. We currently expect our second quarter earnings per share from continuing operations to increase towards the high end of this 10-to-20 percent range, with an opportunity to exceed this guidance if our current sales trend continues."

Mr. Serra continued, "One of Foot Locker, Inc.'s unique strengths is its diversified portfolio of businesses operating in global markets. As expected, our first quarter profit increase was driven by our combined United States store businesses, which benefited from increased sales of higher-priced marquee footwear that led to higher average selling prices. Increased profits by our highly suburban-based Champs Sports division, and earnings accretion from our recently acquired more urban-concentrated Footaction stores, both contributed to our improving first quarter results. While business remained challenging in the European markets where we operate, our divisional profit and profit margin at Foot Locker Europe was strong."

Store Base Update

During the first quarter, the Company opened 23 new stores; remodeled/relocated 90 stores and closed 62 stores. At April 30, 2005, the Company operated 3,928 stores in 18 countries in North America, Europe and Australia. This represents an increase of 341 stores, or approximately 10 percent versus the first quarter of last year, primarily as a result of our acquisition of the Footaction chain.
