Annual Report on Form 10-K for Fiscal Year Ended February 1, 2020

Part III. Item 11. Executive Compensation (incorporated by reference from Definitive Proxy Statement filed April 9, 2020), page 43

1. We note that you use adjusted net income as a performance target under your long-term incentive program. We also note that you calculate this metric based on two-year average annual adjusted net income. For your 2018-2019 LTIP awards, you state that your actual two-year average annual net income was \$555.4 million. This number is not consistent with your two-year average net income as disclosed in your annual report on Form 10-K for the year ended February 1, 2020. Please tell us how you calculated this number from your audited financial statements and include such information in future filings. Refer to Instruction 5 of Item 402(b) of Regulation S-K.

2. As a related matter, we note that you use ROIC as a performance target under your long-term incentive program. We also note that you disclose each item used in calculating ROIC for LTIP, but there are certain items that "cannot be calculated from [y]our audited
